

FERTILIZATION & SOIL ENHANCEMENT

NutriRoot® Granular 3-3-3

Granular multi-purpose fertilizer + soil amendment

NutriRoot® Granular is a blend of essential minerals, seaweed extract, humic acid, surfactants, and humectants designed to improve transplant establishment and increase root development. Reduce environmental stresses in trees, palms, shrubs, landscape, and containerized plants. Easy to apply, handle, and store.

PRODUCT APPLICATIONS

Root Development	Radial Trenching
Transplant Success	Root Collar Excavation
Water Stress Management	Vertimulching
Nutrient Deficiencies	Landscape Plants
Sandy Soils	Containerized Plants
Summer Stress Management	Backfill Additive
Winter Stress Management	Top Dressing

SIZES

5.8 lbs (2.6 kg) — 030-4171

Treats up to thirty 2” caliper trees or up to 3,500 sq. ft. of gardens.

15 lbs (6.8 kg) — 030-4177

Treats up to seventy-five 2” caliper trees or up to 9,000 sq. ft. of gardens.

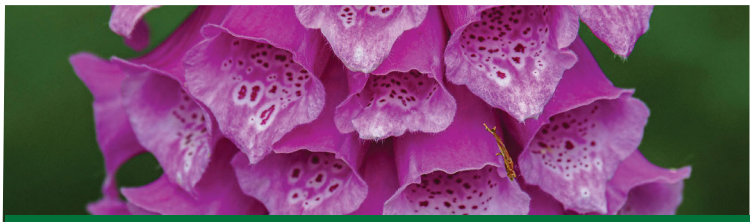
NutriRoot® GRANULAR

3% Nitrogen	0.2% Zinc
3% Phosphorus	5.5% Humectants
3% Soluble Potash	0.4% Humic Acid
0.75% Iron	3% Seaweed Extract
0.5% Manganese	1% Non-ionic Surfactant

GREAT FOR USE ON THESE



PERENNIALS

TREES

SHRUBS

PRODUCT BENEFITS

TRANSPLANT SUCCESS
Increase transplant success, even in poor soils

START STRONG
Ideal for new tree plantings

MOISTURE BOOST
Contains humectants and surfactants to reduce moisture stress

EASY TO USE
No tank mixing or spray equipment needed

ENHANCE SOIL
Supports soil health for more vigorous plants

FOR NEW AND ESTABLISHED
Easiest way to feed new and existings shrubs, annuals, and perennials

CARBON-BASED
Carbon-based for ideal backfill amendment
