

# ARBORCHAR™

5-6-4 PREMIUM FERTILIZER & BIOCHAR BLEND

## ALL PURPOSE GROW

Plant Growth & Soil Enhancement for  
Indoor & Outdoor Growing

### Soil Structure

Improves soil structure and porosity creating a better root environment.

### Plant Nutrition

Provides nutrition for ornamental and edible plants

### Environmental Benefits

Improves moisture retention and reduces nutrient leaching.

Our biochar is obtained by the thermochemical conversion of sustainably grown 100% hardwood, that is untreated, unpainted, and with no added salt. This process turns it into a porous and activated carbon material which helps to improve soil structure, conserve water, and sequester carbon.

### Guaranteed Analysis:

|   |       |
|---|-------|
| Total Nitrogen (N).....   | 5.0%  |
| 0.15%...Ammoniacal Nitrogen   |       |
| 0.25%...Other Water Soluble Nitrogen  |       |
| 4.60%...Water Insoluble Nitrogen  |       |
| Available Phosphate (P <sub>2</sub> O <sub>5</sub> ).....                         | 6.0%  |
| Soluble Potash (K <sub>2</sub> O).....  | 4.0%  |
| Calcium (Ca).....   | 6.0%  |
| Magnesium (Mg).....   | 2.0%  |
| 2.00%....Water Soluble Magnesium  |       |
| Derived from: Blood Meal, Bone Meal, Calcium Chloride, Sulfate of Potash Magnesia |       |
| Soil Amending Ingredients:  |       |
| Biochar from hardwood.....  | 21.0% |
| Total Other Ingredients.....  | 79.0% |

Purpose: To increase microbial activity and enhance nutrient uptake.

Net Weight: 1 lbs (0.45 kg)

**KEEP OUT OF REACH OF CHILDREN**

## THE ARBORCHAR DIFFERENCE:

ARBORChar All Purpose Grow is more than a soil amendment. It is a fertilizer, containing primary and secondary nutrients that are amended with biochar to help improve leaf vigor, root growth, and soil structure.

- Increases moisture permeability and retention.
- Supplies organic matter and aids in the proliferation of soil microorganisms.
- Made from recycled hardwood trees for increased porosity.

## GENERAL USE INSTRUCTIONS

Use ARBORChar All Purpose Grow on indoor and outdoor vegetables, herbs, annuals, perennials, trees, and shrubs.

Mix in at least 1 inch below the surface in new planting beds, around established plants, or in root zone when planting. Repeat applications throughout the growing season every two to four weeks to maintain optimal nutrition. Water in thoroughly after application.

| Amount of product | Container Diameter | Container Volume |
|-------------------|--------------------|------------------|
| 1-4 tsp           | 6 - 24 in          | 1 - 5 gal        |

| Amount of product | Square Feet | Drip Line Diameter |
|-------------------|-------------|--------------------|
| 1/2 cup           | 12          | 4 ft               |
| 1 cup             | 25          | 10 ft              |
| 3 cups / 1 lb.    | 200         | 28 ft              |

## RESTRICTIONS

- Use only as directed.
- Use caution when applying to sensitive or immature plants. Test a small area before applying throughout.
- Do not apply to plants that are damaged by herbicides.
- Do not apply during temperature extremes (<40°F or >90°F) or in a 48-h period when these extremes are expected.
- Keep away from heat and open flame.

## STORAGE & DISPOSAL

- Store in a cool, dry place out of reach of children and pets.
- Dispose of or recycle empty bag as required by State and Local authorities.
