(946 ml.)/2 lbs./0.9 kg), 1 gallon (3785 ml.)/8 lbs./3.6 kg), 2.5 gallons (20 lbs./9.1 kg), 30 gallons (240 lbs./108.9 kg), 55 gallon drum (440 lbs./199.6 kg), and 275 gallon tote (2200 lbs./998 kg).

Manufactured by: Arborjet Inc., 99 Blueberry Hill Road, Woburn, MA 01801 781-935-9070

GENERAL INFORMATION

Eco-1™ Garden Spray Concentrate is a blend of botanical oils which provides a broad-spectrum, contact control of fungal diseases, insects, and mites.

- For use on all plants including but not limited to vegetables, fruits, herbs & spices, roses, flowers & ornamentals, houseplants, trees, & shrubs.
- Prevents and suppresses fungal attack of plant tissues by disrupting the cell wall of spores and hyphae.
- Kills by contact, all stages of soft-bodied insects – eggs, larvae, nymphs, adults.
- For best results, maintain constant agitation in spray equipment.
- The use of adjuvants, surfactants, and/or penetrants is not required when using this product.
- For optimal performance, do not mix with cold water (less than 45° F).
- Can be used throughout the growing season including the same day as harvest.
- Can be used on both indoor and outdoor plants and in greenhouses.
- Low impact on beneficial insects. Avoid direct contact.
- To make one quart of Eco-1 Garden Spray mixture, add 3 fl. oz. of Eco-1 Garden Spray Concentrate and 29 fl. oz. of water.
- 8 fl. oz. of Eco-1 Garden Spray Concentrate makes up to 2 gallons of solution.
- 32 fl. oz. of Eco-1 Garden Spray Concentrate makes up to 8 gallons of solution.

FOR CONTROL OF INSECTS, MITES & DISEASES

Eco-1 Garden Spray Concentrate controls a wide range of soft-bodied insects and mites such as aphids, mealybugs, psyllids, scales, thrips, two- spotted spider mites, and whiteflies. For best results, apply when conditions favor mites or insects or at the first sign of infestation. Use Eco-1 Garden Spray Concentrate to prevent and control various fungal diseases such as powdery mildew, black spot, and early and late blight, scab, gray mold, rust, brown rot, and leaf spot. For best results, apply when conditions favor disease development or at the first sign of disease. To prevent rust, leaf spot, and scab, begin applications at the first sign of spring budding. To prevent powdery mildew, apply in midsummer or when disease is first detected.

DIRECTIONS FOR USE

Shake container, then mix 4 – 12 fl. oz. of Eco-1 Garden Spray Concentrate per 1 gallon of water. Shake well. Spray plant surfaces until wet making applications to upper and lower leaf and stem surfaces. Read entire label and use accordingly.

MIXING INSTRUCTIONS

Thoroughly spray Eco-1 Garden Spray Concentrate mixture on the upper and lower leaf and stem surfaces, especially new shoots and underside of leaves until wet, avoiding excessive runoff. Repeat applications every 7 - 14 days. Under heavy insect and disease pressure, use the shortest application interval. Under light pressure, the application interval may be extended. Continue applications at regular intervals until insect or disease populations are sufficiently controlled.

APPLICATION RATES

<table>
<thead>
<tr>
<th>Plant Pest</th>
<th>Pest Conditions/ When to Apply</th>
<th>Application Rates Per Gallon</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colorado Potato Beetle (eggs &amp; larvae), Lily Leaf Beetle</td>
<td>In spring, when adult beetles first emerge. Apply directly to egg masses and young larvae, spraying to wet, thoroughly covering undersides and top of foliage. Make applications weekly as new egg masses appear for season long control</td>
<td>4 – 12 fl. oz. (gallons)</td>
</tr>
<tr>
<td>Aphids, Mealy Bugs, Psyllids, Scale Crawlers, Thrips</td>
<td>Spray when pest first appears or injury is first observed, such as leaf curl or stippling. Thoroughly cover undersides of foliage</td>
<td>4 – 12 fl. oz.</td>
</tr>
<tr>
<td>Whiteflies, such as: Rugose Spiraling Whitefly and Woolly Whiteflies</td>
<td>Spray when whiteflies (or honey dew) are first observed; repeat applications to protect new growth; thoroughly cover undersides of foliage</td>
<td>4 – 12 fl. oz.</td>
</tr>
<tr>
<td>Warm Season Mites, such as: Two Spotted Spider Mite, European Red Mite, Honey Locust Spider Mite, Oak Red Mite, Palm Red Mite, Broad Mite</td>
<td>Broad host range includes trees, shrubs, bedding plants, herbs, fruit trees, roses, and palms. Warm season mites thrive when daily temps are 95° during the day and 75°F at night. Spray when temps reach 65°F when mites or stippling are first observed.</td>
<td>4 – 8 fl. oz.</td>
</tr>
<tr>
<td>Cool Season Mites: Spruce Spider Mite, Southern Red Mite</td>
<td>Spruce spider mites attack spruce, arborvitae, hemlock, juniper, yew, and pines. Thoroughly cover all surfaces of foliage. Outbreaks occur in Apr &amp; May; and again, in late Aug. Southern Red Mite attack broadleaf evergreens, esp., Japanese hollies and azaleas. Cool season mites proliferate when daytime temperatures are &lt;85°F. Spray when mites or stippling are first observed.</td>
<td>4 – 8 fl. oz.</td>
</tr>

</table>
Local conditions also can influence plant tolerance and may not match those under which testing has been conducted. Before using Eco-1 Garden Spray Concentrate, test the product in a small trial to check for flower or leaf burn before using on a large scale. Use caution when applying to newly planted cuttings or plants stressed by drought. Do not apply when temperatures exceed 90° F. Do not spray the blooms directly.

Caution – We recommend good safety practices when using any pesticide, such as avoiding contact with eyes and skin and keeping out of the reach of children. Wear gloves and eye protection when using Eco-1 Garden Spray Concentrate. May be harmful if swallowed. If product gets in eyes, flush with water. If on skin, wash with soap and water. If irritation persists, contact a physician. This product is not toxic to wildlife and poses minimal risk to fish and aquatic organisms. Avoid direct contact with bodies of water.

Store container in a cool, dry area. Do not store near heat or open flame. Keep from freezing. Offer for recycling if available or discard in trash.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
