

TREE PEST PROGRAM PLANNER

Western USA

USING THIS CHART

Use the chart below to determine what time of year to treat, and which Arborjet product to use.

-  **TREATMENT WINDOW** | BEST
-  **TREATMENT WINDOW** | MODERATE

WHAT YOU NEED TO KNOW

- Multiple application choices may be available and the benefits of each are discussed. These treatments may vary in cost, longevity (residual) and control.
- Our insect control, disease control, and micronutrient injections can be followed up routinely with a soil treatment like **NutriRoot™** to help maintain micronutrient balance in the soil.

PEST			JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEPT	OCT	NOV	DEC
	Bark Beetles (Ips, Western Pine Beetle, Mountain Pine Beetle)	Treatment Window												
		Application Choice	TREE-äge® Insecticide offers highly effective control for up to 2 years with a single application.											
	Aphids, Thrips	Treatment Window												
		Application Choice	IMA-jet provides excellent control and can be followed by MIN-jet Iron or PALM-jet Mg for a nutritional response. AzaSol™ is an OMRI-listed organic solution and can be sprayed or injected for food-bearing plants, trees, and palms. ACE-jet offers a quick knockdown product at low cost that lasts about 60 days.											
	Psyllids (Red Gum Lerp, Asian Citrus, et al.)	Treatment Window												
		Application Choice	IMA-jet provides excellent control and can be followed by MIN-jet Iron or PALM-jet Mg for a nutritional response. ACE-jet offers a quick knockdown product at low cost that lasts about 60 days.											
	Soft Scales (Sycamore, Calico, Lecaniums, et al.)	Treatment Window												
		Application Choice	IMA-jet provides excellent control and can be followed by MIN-jet Iron or PALM-jet Mg for a nutritional response. AzaSol is an OMRI-listed organic solution and can be sprayed or injected for food-bearing plants, trees, and palms.											
	Flat-headed Borers (Emerald Ash Borer, Bronze Birch Borer, Gold Spotted Oak Borer, et al.)	Treatment Window												
		Application Choice	TREE-äge offers two years of control and higher efficacy than other leading products as shown in university studies¹. IMA-jet also provides excellent performance at lower per-mL cost than TREE-äge (best applied in spring).											
	Leaf-feeding Caterpillars (Gypsy Moth, Oak Worm, et al.)	Treatment Window												
		Application Choice	TREE-äge offers highly effective control¹. ACE-jet offers a quick knockdown product at low cost that lasts about 60 days. AzaSol is an OMRI-listed organic solution and can be sprayed or injected for food-bearing plants, trees, and palms.
