

FERTILIZATION &
SOIL ENHANCEMENT

CytoGro®

Root Hormone Biostimulant

CytoGro® is an EPA-registered hormone biostimulant formulated to boost root development, enhance lateral growth and improve plant resilience.

Derived from premium *Ascophyllum nodosum* seaweed extracts, CytoGro delivers a combination of natural cytokinins and hormone enhancers that deliver effective results at low application rates.

CytoGro increases vigor and improves stress tolerance across various species of turf, trees and plants. By amplifying root mass, it aids in the uptake of water, fertilizers and pesticides.

PRODUCT APPLICATIONS

Root Development

Transplant Success

Salinity Tolerance

Summer and Winter Stress

Turf & Landscape Maintenance

Winter Recovery

Landscape Plants

Containerized Plants

SIZES

1 Quart - #080-57315

1 Gallon - #080-57310

30 Gallon - #080-57312

EPA Registration #90022-1

PRODUCT BENEFITS

**INCREASES
TRANSPLANT
SURVIVAL**

**MAXIMIZES
NUTRIENT
UPTAKE**

**IMPROVES
PLANT STRESS
TOLERANCE**

**EFFECTIVE FOR ALL
PLANT TYPES**

**PROMOTES
DEEPER, DENSER
ROOT MASS**

**SPEEDS PLANT
RECOVERY &
GROW-IN**

**ENHANCES
LATERAL GROWTH**

**COMPATIBLE WITH
PLANT GROWTH
REGULATORS**

ACTIVE INGREDIENT

50ppm Cytokinins, as kinetin, derived from *Ascophyllum nodosum* seaweed extracts

APPLICATION INSTRUCTIONS

CytoGro can be applied through fertigation or conventional spray. It may be applied alone or tank mixed with other products.
