

# GOODBYE SPOTTED LANTERNFLY

**Treat for Spotted Lanternfly Before It's Too Late!**

## **Proven Solution with IMA-jet®**

The Spotted Lanternfly population has flourished but we have the treatment you need to protect your trees. Arborjet's tree injection products offer an environmentally sound solution for defending trees against invasive diseases and insects like the Spotted Lanternfly.

A single injection treatment of IMA-jet will control adult Spotted Lanternfly within a few days and continue for the rest of the season. Even if adults migrate to attractive trees, feeding is reduced, and sooty mold will decline. Reduce the moldy mess while protecting your trees. Schedule your treatment today!

Sooty Mold caused by Spotted Lanternfly infestation

### **Why inject for Spotted Lanternfly?**
